

ABOUT US: With a reputation for delivering critical architectural documentation tailored to meet the needs of the AEC team and other stakeholders, we simplify commercial renovation and construction.

From a single floor plan to a complete set of as-built documents with a mechanical system review, our team uses the latest in laser technology to accurately document existing conditions.

Our 3D models, 2D CAD plans, and 360 photography solutions supply the needed tools to successfully manage design data, enable stakeholder visualization, and facilitate inherently complex projects.

Laser scanners, distance meters, total stations and computer software combine to create sophisticated workflows that integrate with customer processes and quickly verify building information.

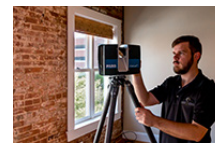

## COMPANY PROFILE

-  Entity: Coast2Coast Survey Corporation
-  UEI No.: TQTMB2YKSSX3
-  DUNS: 842709938 | Cage Code: 3CUK6
-  Contract: 47QRAA22D003P (SIN ENG541330)
  
-  Structure: Privately Held, Established 2000
-  HQ: Chattanooga, TN
-  Geography: United States, Canada, Mexico
  
-  Email: sales@coast2coast.net
-  POC: Amy Voiles | 423 305 5438
-  Website: coast2coast.net/gsa
-  Address: 7704 Basswood, Chattanooga, TN 37416

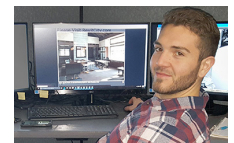

## GSA SERVICES OFFERED

ASBUILT SURVEYS

LASER SCANNING

3D MODEL & RENDERING

REALITY CAPTURE

AERIAL SURVEYS

DOCUMENT ARCHIVING

40 technical experts travel the U.S. using advanced tools to survey existing conditions
